

## TESTIMONIALS

“Having known PenniZ for years, I can assure you she connects with her audience and motivates them to take action. Her keynote speeches are powerful and deliver a compelling message, leaving her audience members motivated and empowered. From years of speaking and training within the United States Junior Chamber and Junior Chamber International Organizations, PenniZ has the ability to customize her presentations and meet the needs of her specific audiences as requested. She has a great work ethic, is a very positive person, and I would strongly encourage any organization to work with her as she will leave things stronger than where they were before engaging with her.”

Scott Greenlee - Lansing, MI

“Many of the people I worked with said they would like to have a positive influence on other people’s lives, but PenniZ is one of those people who just does it and I love that about her. She uses her natural leadership to help people understand what they need to do and then just get it done. And I think her presence and her personality naturally makes people want to be around her and once they spend time with her it is very natural to see the positive effect she has on their lives”

Chuck Bauman - St. Louis, MO

“PenniZ has a passion for positivity, introspection, personal growth, and altruism. PenniZ’s personality warms those with whom she comes into contact as she generously shares the wisdom she’s garnered from her life’s journey. PenniZ provides invaluable support for all who seek to deepen awareness of their unique purpose. Her blend of wisdom and humility are a refreshing combination that makes each encounter an enriching experience!”

Cheryl Grayson - Clearwater, FL
